

School Use of Reportable Offenses

I. Board Philosophy

The Board of Education of Talbot County believes that students are best served by being in school but also recognize that the presence of a student who has been charged with a reportable offense could pose a threat to the safety and welfare of others in the school community and disrupt the education process.

The Board directs the Superintendent to develop regulations to ensure that:

- A. Requirements of the law are met and regulations are implemented
- B. The rights of students who have been charged with a reportable offense in the community are protected
- C. A determination is made as to whether the presence of the student poses a threat to the safety of the school.
- D. The provision of appropriate educational programs and services take place and that educational environments are safe and conducive to learning
