

## BIOMEDICAL SCIENCES

The Project Lead the Way (PLTW) Biomedical Sciences program is offered at Easton High School and St. Michaels Middle/High School. This program is based on the National Standards for Science, Mathematics, English Language Arts, and the Accountability Criteria for the National Health Care Cluster Foundation Standards. Students who successfully complete the program are prepared for employment and further education at two - and four - year college levels. As students progress through the program they receive hands-on-education in science, technology, engineering and mathematics.

## COURSE SEQUENCE

- Principals of the Biomedical Sciences
- Human Body Systems
- Medical Interventions
- Biomedical Innovations

**College credit available  
(Please see your School Counselor)**

## CAREER OPTIONS

- Doctor
- Nurses
- Paramedics
