

## **CAREER RESEARCH AND DEVELOPMENT**

The Career Research and Development program is offered at Easton High School and St. Michaels Middle High School. This program prepares students with the academic, technical and workplace skills necessary to seek further post secondary education and employment in a career field of their interest. The program consists of an in-school classroom component, portfolio development, and a mentor, paid or unpaid, work place component. The Career Research and Development Program exists when a Career and Technology Education program is unavailable.

### **COURSE SEQUENCE**

Career Research and Development  
Career Development Seminar  
Work-based Learning Experience
