

DISASTER PLAN

- I. The Board of Education hereby directs and authorizes each principal to develop emergency plans for the purpose of responding to the following emergency situations:
 - Fire
 - Hurricane or severe storm
 - Bomb threat
 - Civil disturbance
 - Other life threatening emergencies

- II. The Board of Education charges the Superintendent to establish guidelines which will enable principals to develop precise procedures. Drills should be conducted periodically to ensure that all staff and students are familiar with procedures.

- III. Building plans will be reviewed by appropriate public service agencies to determine if they are workable and in accordance with currently accepted disaster management practices.
